Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/30/04 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1,3-10 and 13-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over GB1593738 in view of Delannoy (U.S. Patent 4,600,465).

'738 teaches an installation for a circulation of part-carrying pallets, comprising: a support frame for supporting modules for the circulation of the part-carrying pallets, in which said support frame comprises; at least one vertical frame arrangement; and at least two boxes each comprising a plurality of standard profile members, wherein each box is removably fixed on a respective side of said vertical frame arrangement, and wherein each box comprises an upper surfaced portion that receives at least one module that circulates the part-carrying pallets and a lower portion

Art Unit: 3726

provided with adjustable feet for adjusting a horizontal positioning of said upper surfaced portion.(Figs.19,19a,20 and 32; page 8, lines 105-119)

'738 fails to teach; at least one vertical frame arrangement comprising a plurality of standard profile members rigidly welded together to form a rigid mecano-welded structure ; and at least two boxes each comprising a plurality of standard profile members rigidly welded together to form by a mecano-welded structure.

Delannoy teaches mechano-welded frame work for steady and rigid structure.(col. 2, lines 31-52)

It would have been obvious to one of ordinary skill in the art at the time of the invention was made to modify the structure of '738 by adding the features of Delannoy so as to build steady and rigid structure.

Allowable Subject Matter

4. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
